STANDARD FEATURES

- **Counter Display** : The display shows the current count value of the machine.
- **Batch Display** : Indicates the Batch no. of the machine.
- **Set Point Control** : You can set the required count value in the counter display and the machine will stop upon reaching that value.
- **Buzzer Output** : You can also connect a buzzer externally which will sound when the counter reaches Set value.
- **Auto Reset Feature** : Set a time limit in seconds for automatic resetting of the counter after it reaches its set value, eliminating the need for manual intervention after each cycle.
- **Memory** : Counts are saved in memory during power failures and resumed from the saved point upon power restoration.

- **Reset Option** : The counter offers two reset options, accessible via either the front button or the back terminals. Additionally, you can connect an external button to the back terminals, enabling remote reset capability for added convenience and flexibility.

PREMIUM FEATURES OFFERED ONLY BY ACXA

- **SENSOR Short Circuit Protection** : Safeguards the counter if the sensor's positive and negative wires are shorted by any cause, preventing unnecessary repairs or replacements.
- **Total Counter** : Tracks the total count of products produced by the machine. Resetting this counter is possible via the settings menu.

ACXA BENEFITS
